NEWSLETTER OF THE NATIONAL RADIO CONTROL TRUCK PULLING ASSOCIATION. COVERING  
TRUCK AND TRACTOR PULLING, TUFF TRUCK, AND MONSTER TRUCK RACING

March April 2012

141st Edition

## FROM THE JOE ZONE

-JOE KILIAN-

From the Joe Zone.....

The Springs are just around the corner now and the summer events will be kicking in soon....The growth of the hobby is still gain-

ing momentum especially in the pulling phase. For example there will be 3 pulling events on the week-end of April 14-15 each event will get about a hundred entries and they are spread out across the country one in Texas, one in Ohio, and one in NY. We really hope all of these events are well attended and are a success. The association really needs to redouble their efforts to get more racers attending the events the national club is going to have. If you know

anyone who still has their stuff and might be able to attend let us know we can have somebody call them sometimes that is all it takes. If anyone else has some ideas let us know we are going to pull out all of the stops to revive this venue. The executive board has been really concentrating on racing with new rule changes, new racing formats, new classes, and combining classes to make them bigger. Hopefully that will also help. We are racking

## EXECUTIVE DIRECTOR THOUGHTS

-CHRIS BERCAW-

Greetings NR/CTPA membership,

The NR/CTPA Spring Nationals and Funraiser is upon us. Do you have your vehicles registered for this event? I hope that you have your vehicles repaired and tuned in. If not there is still time to register and get your vehicles ready. If you have anything that needs to be changed or you want to see changed, please have it put onto the Town Hall Meeting agenda, that will be held at the Spring Nationals. If you would like the guidelines for writing a proposal, please ask a director or read the by-laws.

This weekend the STPA had an event, in the sheep show arena at the Wayne County Fairgrounds in Wooster, Ohio. It was a good time of fellowship, food and pulling.

As of April 9, 2012, here is the list of classes and if they have been sponsored or not, the sponsored classes are shown in **bold**. Thank you to all that sponsored classes this year.

PayPal Balance: \$50.00

Respectfully yours,

Helen Singleton, Treas.

04/03/12

our brains trying to up with something the racers will like and a nice way to present it. This will be a huge year with now 3 national events on board, **The SPRINGS , Worlds and iHobby**..this is a super opportunity to grow our hobby I hope most or all of the members can make it to those events. 3

With the SPRINGS up next the yearly call goes out to all who can help. We will be hiring tech people for the pulling side but there will be still setup help and the most important of all teardown help needed. I would like to thank all of the sponsors who are taking up trophy classes and the prize sponsors as well. Also we all need to take a moment and welcome any new competitors if you see any at our events and make them feel at home. A little personal time normally goes a long way towards keeping members and growing membership. Although we are not role models per say (actually the parents are) we still influence younger competitors..and any words that have a code letter and the word bomb after them are probably better left behind closed doors if you can do that well....that would be great...I hope everyone drives safe ...and has a nice time and hopefully we can see all of you at the all of events we have this year.

See ya when I see ya

Joe

## Mark Damewood ..... Gearing Up !!

I just got back from the STPA pull in Wooster, Ohio. It was a great pull with 103 entries. Not to bad for throwing it together with a week and a half timeline. A special thank you goes out to the Berry Pulling Team for all their hard work setting that pull up. As always I'm looking forward to the Spring fund raiser, it's always a good time getting to compete against the pullers we don't normally get to see at our STPA pulls.

The STPA will have its 3rd Annual Haulman Invitational on Memorial Day weekend its pretty light on the invitational part, so everyone come and pull with us. Campers are welcome. It will be a great time pulling on the Haulman backyard dyno. Don't forget the 4<sup>th</sup> annual Hooters pull on June 9<sup>th</sup>. It's guaranteed to have the best (looking) sled return specialists in the sport.

Have A safe and wonderful summer.

Mark

---

**Town Hall meeting Sat night:** Bring your rule changes    Bring your nominations for the executive board....

president , vice president, secretary , treasurer, executive director and event director all current members are on the ballot..... Tim Ludyka Mark Damewood up for re-election and one spot is currently open Scott Taylor and Mike Eckenrode are up for re-election and one spot here is also open Meeting is after competition on Saturday night. Rule changes need 5 member signatures

## Jarred Jones..... Let's Play Trucks

While writing this article, I'm getting everything ready to go to the Springs. This is a fun time of year for me in my basement workshop-especially for my wife. The house is full of fumes and there's nothing like raising her out of bed at 1am with the growl & howl of a chainsaw truck. I'm getting trucks and tractors tuned up and ready for a great weekend of pulling. NRCTPA has a lot of new sponsors for the year. I'd like to thank each of them for their contributions to this sport. Central KY R/C Pullers are heading into a busy pulling season in the big K-Y. We've got eight KY county fairs to pull at this summer. We're going to be busy boys and gals. Our outdoor season will start on May 26 in Henry County. Everyone is welcome to come. Contact me for more info on this summers events.

I'd like to thank the STPA for some awesome winter pulling. Several from KY went up to Ohio to pull and had a good time. STPA has always welcomed us KY hilljacks with a big Buckeye welcome. Everyone be safe. See ya'll at the Springs

## 4 Scott Taylor Elimination racing is an official event!

There's a button on the Eliminations tab in the software that will create the seeds in a file on the C: drive. Use this file to fill out the bracket. Brackets are a best of 3 scenario (you are eliminated after losing 2 races); Fastest time of the pair gets lane choice. Drivers switch lanes after run 1. If necessary, a "sudden death" race is run, lane choice again going to the same driver. Winner moves on. Rinse and repeat.

Saturday morning... at the start of racing, we will run the Qualifying Round of Elimination for seeding of the 1st Round. We will then go into Timed Racing for the remainder of Saturday. This will give everyone a taste of how we will be running NR/CTPA Eliminations.\

Saturday Part 1:

- Timed racing to be added with Sunday's results (1 round, 3 runs in each lane)

Part 2:

- Use timed results to seed round 1 of Eliminations
- 4 rounds of eliminations as discussed in this thread

### **Sunday- Change the track**

- Timed racing to be added with Saturday's results (1 round, 4 runs in each lane)

Here's the reasoning for Saturday; Normally, eliminations would have it's own qualifying event of 1 run in each lane. Why not save some time and combine the qualifying and Timed events?

We also talked about letting racers Qualify ALL their entries Saturday morning for Eliminations on Sunday. However, we are thinking about limiting Elimination entries to 4 trucks per class per racer. The racer will have the choice of which 4 trucks they will enter in Eliminations on Sunday...

About the points system... the points system is to reward consistency and GIVES EVERYONE A CHANCE to win... this is how it will work:

### **Points System: - Race Win = 2 points -- Race Loss = 1 point**

(Points DO NOT carry over to next round)

-- Each Round has points associated with wins and losses... points earned during each Round only pertain to that Round until the Final Round.

EXAMPLE:

--- Round1: Racer1 - 4 wins and 1 loss = 9 Points // Racer2 - 6 wins and 1 loss = 13 Points (Round1 Points Only)

--- Round2: Racer1 - 9 wins and 0 loss = 18 Points // Racer2 - 2 wins and 1 loss = 5 Points (Round2 Points Only, points from Round1 are NOT ADDED to Round2 Points)

--- Round3: Racer1 - 0 wins and 1 loss = 1 Point // Racer2 - 5 wins and 1 loss = 11 Points (Round3 Points Only, points from Round1 and 2 are NOT ADDED to Round3 Points)

Final Round (Championship Round)

-- Racers are seeded by Points accumulated in Rounds 1 thru 3. For instance from above... Racer1 = 27 Points // Racer2 = 29 Points thru 3 Rounds of Racing.

-- When bracket seeding is set for this Round, all points are erased and everyone starts with 0 POINTS. This format requires the racers to be consistent thru every Round and give everyone a chance to win in the Finals.

-- Points accumulated in the Final Round ONLY will crown the Champion. Points are the same... Race Win = 2 points // Race Loss = 1 point

For the Springs, run the 4 rounds of eliminations at the start of Saturday. In what time may be left, do timed racing, 1 round of as many runs needed to fill the rest of the day. On Sunday, 1 round of timed racing as the norm. If eliminations are really shorter than I think, do the opposite at the Worlds.

Scott

*SPRING IS A GOOD TIME FOR PULLING*

The 2012 Spring Nationals NR/CTPA event is just around the corner. There will be lots of pulling, and racing and wrenching in the pits, and I wouldn't be surprised to see a few new vehicles make their debut at the Springs. And it's a great opportunity to spend time with friends and fellow competitors that you might not have seen for a while. Since I'm having problems with one of my knees, I probably won't be competing in as many classes as usual, but I still plan to be there.

I like the atmosphere at The Springs since it's typically a little less competitive, and a little more about having fun than some of the other events. So come on out if you can, and bring as many vehicles as you want. I encourage everyone to attend the Town Hall meeting, and bring up any ideas you have to make things better. If you've got the time to volunteer for any of the many jobs that need to be done, please do so and help however you can to make things move along smoothly, and spread the load out so that nobody has to do too much, but a lot of people do at least a little bit to help out.

Ed
